### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Bain on May 8, 2009.

The application has been amended as follows:

Claim 88, lines 10-11, delete "the overlap being confined within an arc of approximately one radian about the longitudinal axis, or less,".

Claim 108, delete claim.

2. The following is an examiner's statement of reasons for allowance:

Upon reconsideration, Examiner agrees that neither Botcharoff nor McMillan nor Hayes or Nelson teaches two cylindrical enclosures that encloses a UV lamp and rotates with respect to the one another to emit a controlled amount of radiation through a window in each enclosure that overlaps, and that the reference of Meeks does not teach an enclosure for a UV lamp. Thus, the prior art fails to teach or suggest two cylindrical housings that are coaxial and that enclose an ozone-producing UV lamp and provide a non-linear overlap by rotating one cylindrical housing with respect to the other

cylindrical housing via a handle (i.e. extension with a knob), and that is mounted in a HVAC system.

Moreover, while Leighley (20010042842) discloses a UV lamp enclosed in a cylindrical housing with a cover that rotates to allow the radiation to be emitted (see Figures 9-11), Leighley ('842) does not teach that both the housing and the cover are in the form of a cylinder, where each possesses a window that overlaps, or that the overlap is in the tapered form, or that the overlap is effected via an extension/a knob. In addition Leighley ('842) does not teach a forced air type HVAC system that incorporates above components.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to REGINA YOO whose telephone number is (571)272-6690. The examiner can normally be reached on Monday-Friday, 10:00 am - 7:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill Warden can be reached on 571-272-1267. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
